RELEVANT EXPERIENCE

Professional Project - Student Consultant

Client: Park City Municipal Corporation

August 2024 – Present

Project Title: How can we move people? Optimizing Transportation Demand Management (TDM) in Park City: Reducing Congestion and Enhancing Transit Options.

- Conducting comprehensive evaluations of Park City's existing TDM policies and programs to reduce congestion and enhance transit options for residents and commuters.
- Analyzing the current TDM Plan to assess the effectiveness of strategies in managing transportation demand.
- Developing innovative transportation strategies and actionable recommendations based on other cities' best practices and stakeholder engagement input.
- Preparing a comprehensive report outlining findings, analyses, and recommendations for enhancing TDM policies.

Internship

January 2024 – March 2024

East Liberty Park Community Organization (ELPCO), Salt Lake City, UT

- Facilitated community engagement initiatives, including public meetings to gather resident input and promote transparency in planning processes.
- Collaborated with board members to review and evaluate development proposals to ensure alignment with community goals and regulations.
- Provided strategic input on organizational decision-making, budgeting, and community outreach initiatives as part of the general board member.

Graduate Planning Workshop – Student Consultant

Client: Salt Lake City Corporation

August 2024 – December 2024

Project Title: Evaluating Salt Lake City's 20 MPH Speed Policy Change on Neighborhood Road.

- Conducted a literature review and synthesized findings from 10 peer-reviewed articles to assess links between speed limits and pedestrian safety.
- Identified 22 neighborhood traffic crash hotspot areas using spatial analysis in ArcGIS Pro.
- Conducted 15 in-depth interviews with residents in identified crash-prone areas to gather qualitative insights on perceived safety and policy impacts.

Graduate Teaching Assistant

August 2023 - Present

Department of City and Metropolitan Planning, The University of Utah, United States of America.

- Providing academic support to over 60 students by offering office hours, additional support sessions, and clarification on course content.
- Grading students' assignments, lab work, and final projects and providing constructive feedback.

Community Planning Project – Beposo Community

May 2019 – July 2020

- Led a community planning project for the Beposo neighborhood with 1,500 residents, focusing on infrastructure, demographics, and socioeconomic conditions.
- Conducted comprehensive data collection and analysis to identify key developmental challenges and opportunities.
- Produced a detailed community profile with actionable recommendations to guide future planning efforts, contributing to rural development strategies.

RELEVANT SKILLS

- **Geospatial and Technical Tools:** Proficient in ArcGIS Pro, QGIS, R, Excel, and Exploratory for spatial analysis, data visualization, and interpretation.
- **Research and Analysis:** Experienced in designing surveys, conducting statistical analysis, and applying qualitative methods such as interviews and focus groups.
- **Communication:** Skilled in writing clear, concise reports and delivering presentations tailored to technical and non-technical audiences.
- **Community Engagement:** Proven ability to lead public meetings, facilitate stakeholder input, and support inclusive, collaborative planning processes.
- **Project Management:** Adept at managing projects with multiple stakeholders, timelines, and deliverables, producing actionable, data-driven insights.
