

Sasha Picciotto

Seattle, WA 98105 | 425-615-1529 | scpicciotto@gmail.com

Education

Bachelor of Arts: Environmental Analysis (Sustainability and the Built Environment), Minor in Philosophy
Pitzer College | Claremont, CA | May 2024

Planning and GIS

GIS Data Collection and Analysis

Robert Redford Conservancy, Claremont, CA

October 2023-February 2024

- Gathered, organized, and categorized parcel data from the southern 7 counties in California using ArcGIS Pro to create a comprehensive parcel map of Southern California
- Collected, analyzed, and sorted planning datasets containing more than 2 million records
- Developed a publicly accessible resource that supports land use planners, developers, conservationists, and the general public using ArcGIS Pro

City of Vancouver Intern

Jericho Lands Planning Program, Vancouver, BC

May 2023-August 2023

- Assisted in community engagement for a 90-acre mixed-use development in downtown Vancouver by conducting surveys and assisting with open house meetings
- Worked under direction of Senior Planners to communicate with community members, multiple stakeholder such as Tribes, developers, and the public regarding zoning, regulations, project scope, and local resident concerns

Work Experience

Callaway's Coffee and Bistro

Barista, Athens, TX

December 2025- June 2026

- Engaged with the public and developed strong communication and multitasking skills as the only barista on shift
- Prepared coffee, beverages, and food/bistro items, ensuring quality and efficiency in every order

La Parisienne French Bakery

Barista, Seattle, WA

October 2024-February 2025

- Worked collaboratively preparing coffee and beverages as a barista in a fast-paced, high-volume environment
- Assisted with food preparation, assembled orders, and delivered them to customers' tables

Additional Experience

Farmhand on a Local Organic Farm

Clinton, Whidbey Island, WA

March 2025-June 2025

- Full-time volunteer work on an organic farm/homesteading property through the WWOOF (Worldwide Opportunities on Organic Farms) program
- Developed skills with sustainable agricultural practices and helped with a WA Forestry-backed project on mediterranean crop growth viability in the PNW for climate resilience

Bicycle Tour of Iceland

Iceland

June-July 2024

- Organized and led a group of five previously inexperienced cyclists on a successful bicycle tour around the perimeter of Iceland
- Conducted extensive research for route and logistics planning, using ArcGIS Story Maps to organize and share the research in a digestible format
- Learned critical bicycle repair/management skills, and applied these skills during the trip

Portfolio:

My Portfolio, linked below, includes information about my ArcGIS project as well as projects in urban planning/design utilizing SketchUp
