

2013 Washington Youth Summit on Climate Change

TUESDAY, OCTOBER 1st, MEYDENBAUER CENTER, BELLEVUE

REGISTER AT: <https://www.eventbrite.com/event/8371630773>

NO REGISTRATION CHARGE!

Why do we need a Youth Summit on climate change?

The summit will provide a voice for community college and high school students in climate action planning giving students an opportunity to discuss how climate change is affecting them and their future.

Hear from National & State Leaders

It is the desire of Washington APA to bring together students, educators, and leaders from business, government and non-profits who serve as examples and can address the important role that their generation must play in sustainability and climate change.

When will this take place?

The Summit will be held on October 1st 2013. 9am to 4pm

Some Community Colleges will be participating including:

- Bellevue College**
- Spokane Community College**
- South Puget Sound Community College**
- Yakima Valley Community College**
- Washington State University – Vancouver**
- Whatcom Community College**

Find address information at:

http://www.sbctc.ctc.edu/docs/college_addresses.pdf

The morning sessions will be webcast and can be accessed at:

<http://www.ustream.tv/channel/washington-youth-summit>

Who should attend?

Together, community college and high school students with an interest in climate and sustainability from across the state are invited to attend this exciting and informative discussion that will feature dynamic keynote presentations highlighting key issues and provide skill building and networking opportunities - all focused on creating a more sustainable Washington.

AGENDA

Washington Youth Summit on Climate Change

How is Climate Change Affecting the Pacific Northwest?

Students, experts, and professionals will discuss the best available science.

What Is Being Done to Address Climate Change?

Students, state and national leaders will discuss innovations in business, government and public education/organization efforts to reduce greenhouse gas emissions.

What Next?

Students will identify recommendations and actions in areas of business, policy and education.
